STACKS

Your Personal Reading Library

What is Stacks?

Stacks is a web application designed to help readers organize their personal book collections and discover local libraries where they can borrow titles. It bridges the gap between digital book discovery and physical library access.

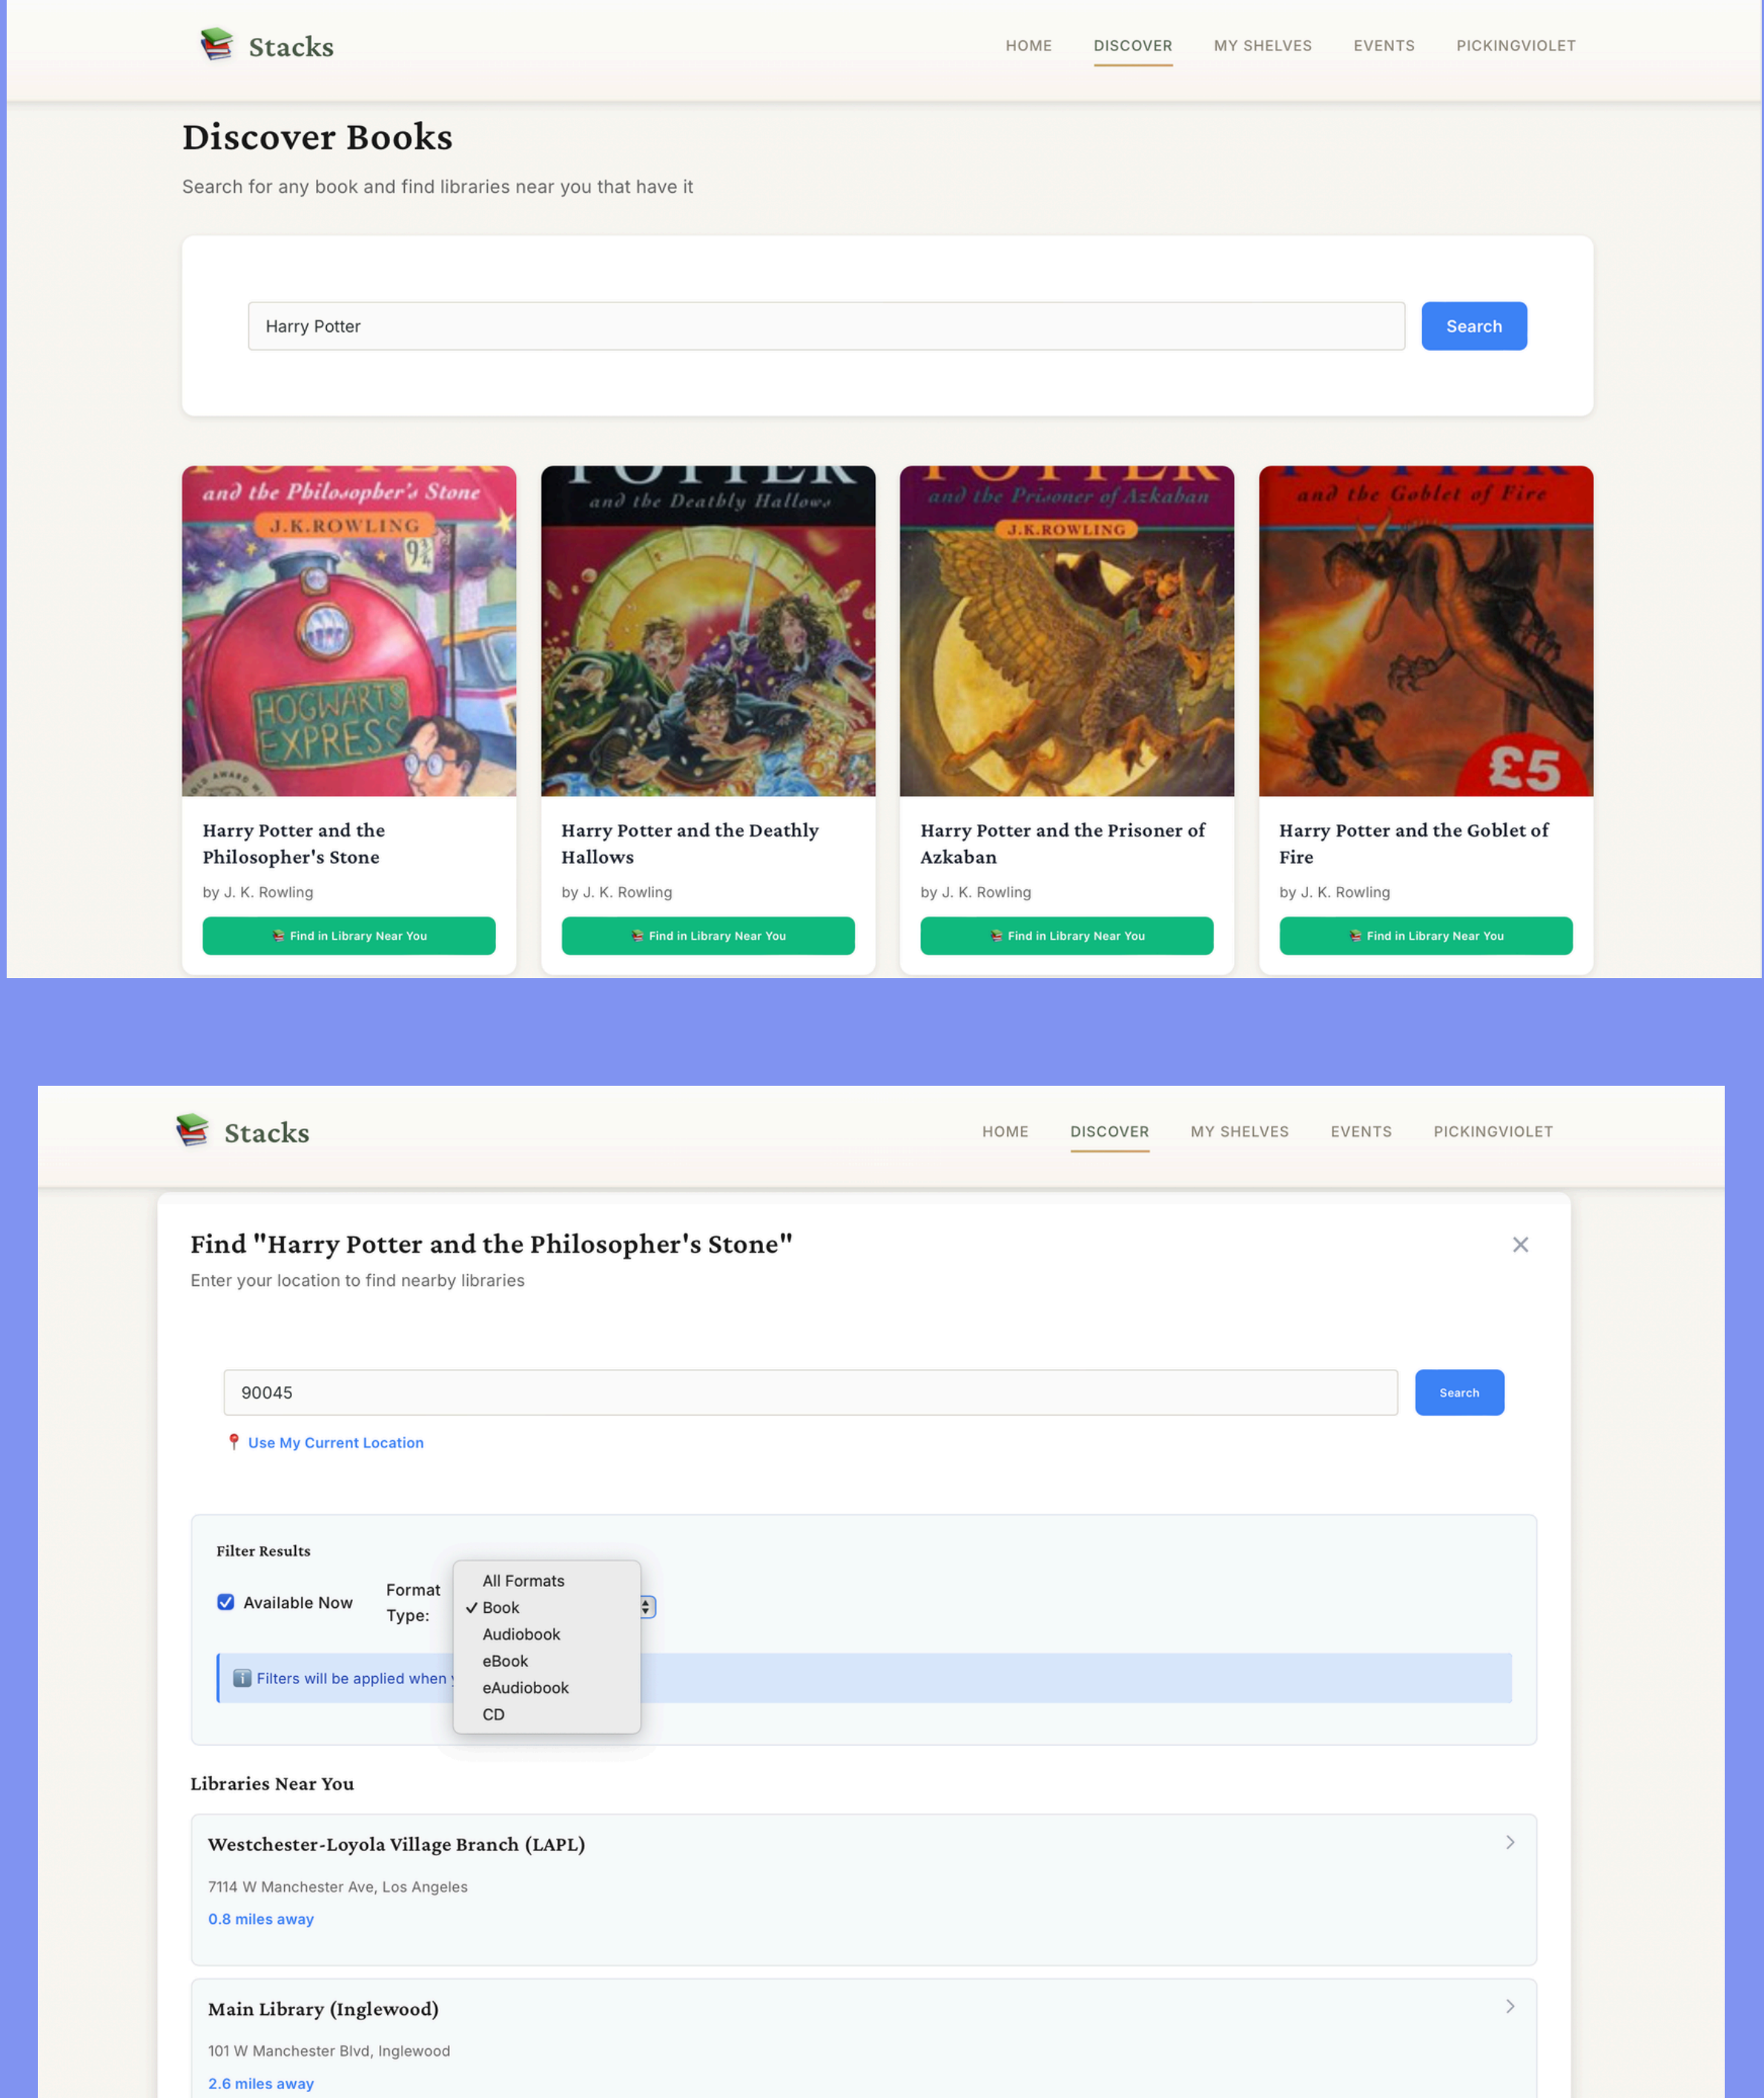

Stacks Match AI

Key Features

- Smart Search Search by title, author, or ISBN with instant results
- Library Finder One-click links to your nearest library's catalog
- AI Recommendations Gemini AI suggests your next read based on mood & taste
- Reviews & Ratings Rate books, write reviews, like and rank others' reviews
- Barcode Scanner Scan a book's ISBN with your phone camera
- Savings Tracker See how much you've saved borrowing from the library
